Samsung has introduced its Galaxy S Advance (GT-I9070) Android smartphone in India.

Samsung Galaxy S Advance

Samsung's Galaxy S Advance has a 4-inch touch display. The device runs on Android v2.3 Gingerbread OS and is powered by 1GHz processor. The Galaxy S Advance sports a 5MP camera. The Samsung device is equipped with Find My Mobile, a lost-phone management system that allows users to track their lost phone via a web browser (samsungdive.com) and remotely delete data.

The GALAXY S Advance is promised to deliver HSPA 14.4mbps connection speed. It also features Wi-Fi Direct connects users to other devices through Wi-Fi access points for easy content sharing. The device comes loaded with three content rich hubs - Readers' Hub, Social Hub and Game Hub.

Samsung Galaxy S Advance Price

The Samsung Galaxy S Advance is priced at Rs 26,900.
