

Free Visualization Components For Flex (AS3)

176 Administrator Sun, Jan 3, 2010 [Web Development](#) 0 4515

Kap Lab is presenting 5 impressive & free **visualization components for Flex**. All components are AS3 based & some of them offer multiple layout options which makes them very flexible in means of presentation.

The components are:

1. Diagrammer (for diagram creation, mind mapping)
2. Visualizer (for displaying hierarchies like organizational schemas)
3. Radar Chart (for data analysis, comparing data items)
4. Treemap (for inventory management, social news mapping)
5. Ring Chart (for displaying statistics)

Examples are provided for each component with the sources & there is a support forum where users share their experiences. Download requires a free membership.
