Beautiful Free Charts For Excel & Powerpoint

18 Administrator Sat, Jun 1, 2019 <u>Business</u>, <u>Software</u>   0 6339

Although MS Excel & Powerpoint seems a little bit out of the scope for web designers/developers, **many web applications are built with reporting options that can be exported** , so, they can be easily used as templates.

 Juice Analytics is sharing **15+ free Excel & Powerpoint charts**   that can beautify any report.

There are simple-to-advanced examples of various chart types like bar, line or pie charts which comes with sample data that makes customizing faster by editing the values used.
