Easy Slider jQuery Plugin is brought to you by CSS Globe. Easy Slider is the easiest jQuery plugin for **sliding images and content**. The **Easy Slider** plugin enables images or any content to **slide horizontally** or **vertically** either continously or upon click. It is configurable with css alone. So, basically you link to plugin file, set the content up and style it with css.

Easy Slide **jQuery Slider** allows to put **multiple sliders on a page** and you have freedom to place any type of content in your content slider.

Easy Slider Features

- Auto slide
- Continuous sliding
- Numeric navigation (as an alternative to next/previous buttons)
- Continuous scroll instead of jumping to the first (or last) slide
- "go to first" and "go to last" button
- Giding controls
- Optional wrapping markup for control buttons
- Vertical sliding
- Multiple sliders on one page

Because of it's simplicity and light-weight it is much easier to deal with this **slider plug-**

in and configure it.
