

inFocus - Professional WordPress Theme

439 Administrator Sun, Apr 11, 2010 [Themes](#) 0 3175

inFocus is a powerful professional premium **WordPress theme**. It comes with an impressive fully customizable jQuery homepage slider with 3 different staging effects.

The screenshot displays the inFocus theme's homepage. At the top, there's a large, dark header with the text "inFocus for Wordpress". Below the header is a three-stage jQuery slider showing interior office environments. To the right of the slider is a sidebar with the heading "Four Reasons to Get inFocus Now!" and a list of four bullet points. At the bottom of the screenshot, there's a list of features on the left and right sides.

> Jquery Slider + 3 Staging Effects	> Unlimited Portfolios in 2 Views
> 27 Custom Shortcodes	> Portfolio Video Support
> 10 Color Variations	> Massive Backend Options
> Ajax Contact Form	> And so much more...

Whether you're a WordPress pro or just a beginner, this theme has you covered. With a huge custom back end area you have complete control over the look and style of your theme. Add images to your homepage slider, add as many sidebar widgets as you like, pull in your latest tweet from Twitter and much much more, all without having to touch a single line of code!

For your convenience inFocus comes with 10 skins to choose from. Click on color name below for a full preview. Also below is a full list of inFocus's features.
