FTP is an acronym for File Transfer Protocol. FTP, or File Transfer Protocol, is the universal way to send, receive, and manage your files and folders using the internet. If you manage a web site, need to send a file to a friend running an FTP server, need to post eBay images to a image host, or download a lot of software updates, then Transmit is the perfect program for you: it makes FTP easy and fun!

File Transfer Protocol (FTP) is a standard network protocol used to copy a file from one host to another over a TCP/IP-based network, such as the Internet
